

# Twistin' By the Sea Necklace

## Materials needed:

- BR1250 - 19 x 11mm Anti-Tarnish Brass Connector - Qty. 23
- RR4-40G - 6.5mm Jump Ring, 18 gauge Gold Color - Qty. 53
- RR5-50G - 7.5mm Jump Ring, 16 gauge Gold Color - Qty. 1
- SD04GP - 4mm Stardust Gold Color - Qty. 4
- GF157033 - 14kt. Gold-Filled 12mm Toggle with 18mm Bar - Qty. 1
- BCPD406GP - 6mm Bead Cap Gold Color - Qty. 1
- NTW20G - Non-Tarnish 20 gauge Gold Color - Qty. 1
- DCNLG66 - 40 x 20mm Sea Shell Bead Ocean Treasure 2mm Hole - Qty. 1
- DCNSM66 - 25 x 20mm Sea Shell Bead Ocean Treasure 2mm Hole - Qty. 3

## Optional Dangle:

- HDPO29225GP - 2.25" Head Pin Gold Color - Qty. 3
- SD04GP - 4mm Stardust Gold Color - Qty. 1
- 530106MON - 6mm Swarovski Bicone Montana - Qty. 1
- 530106KH - 6mm Swarovski Bicone Khaki - Qty. 1

## Step-by-step instructions:

- Using 2 pair of chain nose pliers, open half the jump rings & attach one jump ring to each side of all the connector pieces;
- Link the connector pieces together as follows (there will be 2 jump rings between each connector):
  - 1 strand of 8 connectors
  - 1 strand of 4 connectors
  - 1 strand of 7 connectors
  - 2 pieces of 2 connectors
- Cut 4 pieces of 20 gauge tarnish resistant wire to approximately 4" and form a wrapped loop on one end of each;
- Attach 2 jump rings to each wrapped loop on 3 of the wires - leave the 4<sup>th</sup> wire to the side for now;
- With one piece of wire, load a small Sea Shell bead, a 4mm Stardust bead and make a large wrapped loop on top of the Stardust bead;
- Open the jump ring on the end of the 8 connector strand and attach it to the wrapped loop you just created;
- Open the jump ring on one end of the 4 connector section and attach it to the last jump ring extending from this first small Sea Shell bead;
- With a second piece of wire that has the 2 jump rings attached to it, load another small Sea Shell bead, a 4mm Stardust bead and make another large wrapped loop;
- Open the jump ring on the end of the 7 connector strand & attach it to the wrapped loop of this 2<sup>nd</sup> Sea Shell component;
- Open the jump ring on the top of one of the 2 connector pieces & attach it to the bottom jump ring extending from this small Sea Shell bead;
- Make a third small Sea Shell component with the third piece of wire that has 2 jump rings attached on one end;
- Open the bottom jump ring of the 2 connector section added earlier and attach this 3<sup>rd</sup> small Sea Shell component;
- Add the last 2 connector section to the last jump ring extending from the 3<sup>rd</sup> sm. Sea Shell component;

## Optional Dangle instructions:

- Before forming the large Sea Shell pendant, load 3 head pins as follows:
  - One 4mm Stardust bead
  - One 6mm Swarovski Bicone - Montana
  - One 6mm Swarovski Bicone - Khaki
- Use round nose pliers to randomly "kink" the wire of each headpin - you'll want each to sit at a different length;
- Create a wire wrap onto the wrapped loop of your last piece of wire;
- Continue with step 14 (page 2) to finish creating and attaching your pendant.

*Step-by-step instructions (continued):*

- 14) Using the 4<sup>th</sup> piece of wire with a wrapped loop on one end, load the large Sea Shell bead, the Bead Cap, and the last 4mm Stardust bead and make a wrapped loop;
- 15) Open the 7.5mm jump ring and attach the bottom of the one connection strand, the large Sea Shell pendant, and the bottom of the second connection strand;
- 16) At the other end of your connector strands, add your toggle clasp ensuring you add an additional 6.5mm jump ring to the bar side so the bar will pass through the toggle ring.

BeadSmith Supplies

4mm Stardust

6mm Bead Cap

6.5mm Jump Ring

7.5mm Jump Ring

19 x 11mm Connector

12mm Toggle & 18mm Bar

Khaki - Swarovski Bicone

Montana - Swarovski Bicone

Small - Sea Shell Bead

Large - Sea Shell Bead

20 gauge Non-Tarnish Wire

Round Nose Pliers

2.25" Head Pin
